3D COLLAGE!!

LEARN WATERCOLOR TECHNIQUES

HOW IT WORKS

Depending on your child's skill level, age and interest we can customize the lesson. We have fashion figures that are available to trace over, so they aren't held back by trying to do the figure correctly.

Or for older children or adults we can teach you how to draw the fashion figure from scratch. This can all be discussed prior to your lesson(s).

As you can see from the pictures, we have a wide assortment of lessons with tons of fun inspiration so that generating that creative spark is never an issue. You can work in the medium of your choice or we can pick it for you. If you can't decide which medium to concentrate on, then try our 3 package option where you can try a variety of medium from collage to watercolors!

Contact lara@studiomakeit.com to set up you lesson!
